

Dear Valued APMA Member,

In 2013, the Automotive Parts Manufacturers' Association (APMA) began working with GroupHEALTH Benefit Solutions to provide association members with access to a group benefit plan that leverages our collective industry size. The idea was to develop a plan that would save members money while also supporting employees and ensuring that the plan would remain sustainable over the long term.

I wanted to take this opportunity to update our members on the plan and the new cost containment opportunities that are now available. GroupHEALTH has extensive experience working with associations across Canada. More than 35,000 employees are currently employed from almost 600 companies are covered by the GroupHEALTH Association Plan. These companies are taking advantage of best-in-class benefits administration technology, reduced costs and valuable program enhancements including Managed Rx, Mid-Term Disability, and Release of Reserve. Please ask a GroupHEALTH representative for more information on these exciting new programs.

GroupHEALTH Benefit Solutions will be reaching out to APMA members in the near future to offer a smooth and convenient transition to this program. If you've considered introducing a group benefit plan for your employees, or if you already have a plan and want more information about your alternatives, I encourage you to consider the GroupHEALTH APMA plan.

In the interim, if you have any questions, please don't hesitate to contact GroupHEALTH directly at 1-888-719-3077 or send an email to [info@grouphealthglobal.com](mailto:info@grouphealthglobal.com).

Flavio Volpe

President

Automotive Parts Manufacturers' Association (APMA)
