

About
apmaTEC

The **Automotive Parts Manufacturers' Association** (APMA) division, apmaTEC (Technical Enhancement Center) is a Canadian - based organization responsible for the development, implementation and delivery of the AVIN/APMA Demonstration Zone Project in Stratford, Ontario. Our objective is to support Small to Medium sized Enterprises (SMEs), with the demonstration of their connected/autonomous technology, in a fleet of 20 vehicles (Sedans, CUVs, SUVs, Transit Buses and Utility Trucks), to global original equipment manufacturers (OEMs), Tier 1 and 2 parts manufacturers, multinational enterprises (MNE) and other potential customers.

BROADENING THE
AUTOMOTIVE ECOSYSTEM

Technology Integration

Our objective is to support Small to Medium sized Enterprises (SMEs), with the demonstration of their connected/autonomous technology, in a fleet of 20 vehicles (Sedans, CUVs, SUVs, Transit Buses and Utility Trucks), to global original equipment manufacturers (OEMs), Tier 1 and 2 parts manufacturers, multinational enterprises (MNE) and other potential customers. The integration of the technology should help to showcase the unique offerings that the Tech can offer, both in a dynamic and static demonstration. If you are an Ontario-based SME and would like to be a part of the AVIN Demonstration Zone project, please visit www.apmatec.ca

BROADENING THE AUTOMOTIVE ECOSYSTEM

Our Mission:

connecting your automotive technology to global OEM customers.

How do WE do it:

- Your Technology (Connected or Autonomous).**
- Our fleet of vehicles (Sedans, CUVs, SUVs, Minivans, Buses & Trucks).**
- Our experienced integration teams.**
- Our SMART City of Stratford (Island of Autonomy).**
- Our senior auto executive support teams advice & insight.**
- Our National and Global reach to future mobility markets brings customers to you.**
